## EDUCATION

---

**GP Koirala Memorial College of IT & E-commerce**  
Bachelor of Computer Application (BCA)

Kathmandu, Nepal  
Jul 2022 - Present

## WORK EXPERIENCE

---

### Industry Experience

---

**Frontend Developer Code Himalaya** (On-Site)

March 2023 - Present

- Contributed to the development of "TAML" (Trust Anti Money Laundering System), an internal banking system.
- Utilizing React Framework with a focus on RBAC (Role-Based Access Control).
- Responsible for matching, setting up master data, and creating KYC for online and walk-in customer account openings.
- Showcasing multi forms for multiple personals to perform crud operation.

## PROJECTS

---

**TAML(Trust Anti Money Laundering)** - IOMS Project

- Developed an internal banking system using React Framework.
- Implemented Role-Based Access Control (RBAC) for secure access control.
- Utilized Swagger for API documentation, Tanstack query for data-fetching and React hook form for complex form handling.
- Consumed third-party APIs for enhanced functionalities.
- Managed the entire KYC process, including matching, setting up master data, and creating KYC for online and walk-in customer account openings.
- Post KYC completion, orchestrated the transfer of all relevant data to the Core Banking System (CBS).
- Worked with business analysts, quality assurance personals and backend team

**Himalayan Paws Rescue**

- Developed an animal rescue site using vanilla js
- Created a platform for both adopter and rescuer to interact
- Implemented OTP(One Time Password) feature for user email sign up using php
- Utilized HTML + CSS + JS for frontend and PHP + mysql for backend
